

Shu-Jung Tang

*Department of Physics
National TsingHua University*

Shu-Jung Tang is an associate professor in the department of Physics of NTHU with a joint appointment at the National Synchrotron Radiation Research Center (NSRRC). Prof. Tang also held a visiting professorship at the Institute for Solid State Physics (ISSP), University of Tokyo in 2011. Prof. Tang's researches focus on the electronic structures and behaviors of metal surfaces, semiconductor surfaces, metal thin films and organic thin films.
