

## **Hyeyoung Ahn**

*Department of Photonics*

*National Chiao Tung University*

Hyeyoung Ahn received her BS and MS degrees in physics from Korea University, and PhD degree in physics from University of Texas at Austin, U.S.A. She stayed in NTT and JAERI in Japan as a postdoc fellow. After she moved to Taiwan, she has worked as a researcher in ITRI. Now, she is an associate professor in the Department of Photonics, National Chiao Tung University. Her research interests include ultrafast carrier dynamics and photoluminescence of semiconductors, and coherent terahertz-wave generation and THz spectroscopy.
